

JUSTICE HOUSE OF PRAYER BOSTON

The primary motivation of all that is done at JHOP is to pour out our extravagant love and devotion to Jesus Christ who is worthy of all praise and adoration. At the same time, a unique and defining characteristic of JHOP is governmental intercession as delineated by the 1 Timothy 2 mandate. **True reformation, revival, and revolution in our city and nation will only be born out of a spiritual shift and this can only occur when we have altered the spiritual atmosphere and power structure through sustained prayer and fasting.**

To this end JHOP has gathered a community of people to give their lives in worship and intercession. Jesus spoke these words about Mary of Bethany "One thing is necessary and she has chosen the good part." We are a company convinced that one thing is necessary, the life style of prayer. We have gathered with the heart of Mary of Bethany, extravagant love and devotion and the spirit of John the Baptist, a violent anointing to lay hold of the kingdom. We are utterly convinced that a violent spiritual shift and the invasion of God's glory is the only redeeming hope in this hour. We have set our face to see a nation turn back to God and to contend for the greatest revival in the history of man.

The house of prayer is composed of full time and part time staff members. Those that are full time are giving their lives wholly and entirely in this season to seek the face of God and cry out for a spiritual shift and a reversal. The house of prayer is the primary and central focus for this season in time. This is a season of intensified focus, sacrifice and a fasted life style. The standard requirement includes participation in the nightly prayer set six nights a week, prayer walking Harvard four days a week and serving in other capacities as needed approx. twenty hours a week. Although this is the standard, intensified seasons of prayer and fasting are common and special projects or travel requiring more time and flexibility. When we engage in a corporate fast participation is expected. During this season the standard holiday and vacation time (with exceptions) is a one-week time frame.

Part time intercessory missionaries are those individuals who feel called to the house of prayer while also they also maintain other responsibilities (ex: school, work). Though they may be restricted in their corporate participation their heart burns to fuel the house of prayer and to see a violent spiritual shift. Those that desire to raise

support so they can sow into the house of prayer part time are required to give approximately twenty to twenty five hours a week. This includes a minimal of three nights a week in a prayer set, two days a week prayer walking and ten hours a week of office/ administrative work. When we engage in a corporate fast participation is expected while there is understanding that circumstances may require varying degrees of participation. A part time commitment has greater flexibility of holiday and vacation time.

Those that are considering a full or part time commitment to the house of prayer are urged to prayerfully read and consider the Core Values of JHOP. Full and part time individuals must be in agreement and in active pursuit of the heart and spirit of those things defined within the core values.
